## The financial contribution system

Each year, our members are provided with a suggested contribution amount that their city can make to support the Mayors for Peace 2020 Vision Campaign. The suggested contribution is completely voluntary and the amount can be amended by the contributing city to any other figure that they deem suitable.

The financial contribution system used by Mayors for Peace sets out to ensure equality. The suggested contribution amount is calculated according to the size (population) of the local authority and the Gross National Income per Capita (GNI) of the country, as reported annually by the World Bank.

The economic categories, divided into four groups, come from the World Bank, a source used by other international non-profit organisations for calculating membership fees.

The global financial campaign contribution structure is based on the euro, since the international campaign office is based in Ypres, Belgium.

This year we have received contributions from 244 cities. The contributions ranged in amount from 24 Euros to over 3,000 Euros. The average of the individual contributions was 660 Euros. A number of cities have also pledged an annual yearly sum to the campaign, up until the year 2020.

Any contribution that is made to us is most gratefully received. The following table is used as guidance when suggesting the contribution amount of each city:

Local Authority	World Bank Group (according to GNI per capita)			
	I	II	III	IV
Population				
	Suggested Contribution			
< 25,000	50	150	200	300
